### **Request for Water Initiatives Summary from Partners**

In the spirit of Water 2050: A Regional Summit, we would like to gather information about any water-related activities or programs that are already happening in our region to create a resource workbook for our partners. The purpose of the workbook is to highlight current activities and to inform all partners on who is working on what in the region's water world. Our hope is that this effort will form partnerships and collaboration between organizations with similar goals and projects. If everyone participates, we could produce a workbook that accurately captures water planning and implementation activities in our region.

#### **What we need from you:**

Use the bulleted outline below to fill in the **applicable** information about any water related activities or programs your organization is currently involved in. Please limit the text to one page. Attach this word document in an email or cut and paste the bulleted outline directly into the body of an email and send to [atalbot@cmap.illinois.gov](mailto:atalbot@cmap.illinois.gov). If you have any questions, contact Amy Talbot at the email address above or 312.386.8646.
